DETAILED ACTION

1. This communication is in response to Applicant's amendment filed on June 14, 2006. Double Patenting rejections and rejections made under 35 USC 103 in the final office action mailed on October 11, 2005 are withdrawn in view of the persuasive arguments. Office records show that the applicant submitted IDS on February 12, 2005. However the office has no records of the IDS themselves. Applicants are requested to submit duplicate copies of these IDS for consideration by the examiner before payment of issue fees. Claims 1-40 are pending in this application.

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter:

3. The prior art of record (Lundgren US Patent 5,608,620 in view of Curtis et al (US Patent 6,208,720 B1) teaches a system and method for monitoring analysts' estimates including means for storing on a per analyst basis, current estimate data for a plurality of analysts, the data including at least an estimate amount and when the estimate was made; and means for issuing an alert when at least one alert condition is satisfied for at least one analyst.

Even though, the prior art of record teaches the above-mentioned steps, the prior art of record fails to teach a system and method for monitoring analysts' estimates including means for analyzing the current estimate data and determining when one or more alert conditions are satisfied.

For these reasons claims 1 and 40 are deemed to be allowable over the prior art of record, and claims 2-39 are allowed by dependency on an allowed claim.

Art Unit: 3628

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled Comments on Statement of Reasons for allowance.
